

SOCIALLY USEFUL PRODUCTIVE WORK (SUPW)- IV–X

SUPW is an integral part of our school curriculum. The idea behind it is to allow our students to give expression to their co-curricular interests and aptitudes. Participation in one of the activities pertaining to SUPW is compulsory. Some of these activities are managed by our own faculty and for some we hire external resource persons. The conduct of such activities will depend on the availability of resource persons. Activity is allotted on the basis of student's aptitude as assessed by teachers, and once allotted they have to continue as a member of that activity for the entire academic year.
